Lifecycle Benefits Of A Silicone Roof Restoration System

A study of building envelope systems compared the life cycle costs of a conventional roof replacement vs. a roof restoration with a Silicone White Roof Coating. The study found that over 40 years, the silicone roof restoration would deliver considerable cost advantages. In most cases, up to 75% savings could be achieved with a roof restoration system.

Roof Restoration Vs. Replacement

Four times the cost reduction vs. tear-off

Can provide energy savings up to 49%

Stop landfill waste & impact on our environment

Prevents disruptions to the business, employees, & customers

Supports tax incentives & cool roof rebates

As a manufacturer of high-quality commercial products, W. R. MEADOWS is leading the industry with tools and resources for building owners, facility managers and commercial real estate groups to assist you through the process of maintaining your existing roofs. Whether you're buying a building or selling a building, W. R. MEADOWS can help you with best practices for roof inspections and maintenance programs with our network of certified contractors.
